LG3 2001 65° Louvre

Recessed

600 x 600 3 Lamp HF E3 Luminaire

Prismatic Panel

Available in a comprehensive range of sizes, with full box construction offering rigidity through mechanically spot welded corners.

Manufactured from CR4GP steel, pre-treated through a three stage iron phosphate system for paint adhesion and durability, and then finished with a white, high gloss, epoxy polyester powder coated paint.

Designed to suit our robotic wire and test equipment.

A wide selection of control gear is available including switch start, high frequency electronic, analogue dimming and digital dimming systems.

Wieland options available on request.

3 hour maintained emergency versions available as standard on all models.

Controller options include wedge crossblade louvres compliant with LG3 1996 and 2001, general purpose low brightness louvres and prismatic panels including TP(a) fire rated.

All controllers are of the 'lift and tilt' variety and the correct grid size, ie: standard 24mm or narrow 15mm, must be specified at point of order.

Manufactured to BSEN 60598 specification and CE Marked to comply with EMC regulations.

Full technical data sheet and photometrics available on request.

A free, comprehensive design facility can be accessed through our Lighting Services Department.
