

Pro-Sport

Surface

Asymmetrical

Symmetrical

The Dextra Pro-Sport incorporates the latest technology T5 lamps to illuminate Sports Hall environments

Highly efficient reflectors provide a DLOR of 82% maximizing the available luminous flux

Designed to allow removal of gear tray and wire guard as a single assembly allowing for ease of installation and maintenance

Fittings can be suspended

Symmetrical and Asymmetrical light distribution versions available

The exclusive use of colour 84 T5 lamps and High Frequency control gear give maximum efficiency and quality of light

The fitting is available in 3 and 4 lamp variants using 35w, 49w or 80w lamps, the gear and lamp wattage must be specified when ordering

Fittings complete with lamps and wire guard as standard

Dimmable control gear available enabling lighting designers to draft schemes for international, county or club level lighting levels whilst still maintaining uniformity of light

Emergency versions available

Fittings manufactured from CR4GP steel, pre treated through a three stage iron phosphate system for paint adhesion and durability, and then finished with a white high gloss epoxy polyester powder coat paint

Manufactured to BSEN60598 specification and CE marked to comply with EMC regulations

Technical data sheet and photometrics available on request

Pro-Sport

Surface

A versatile surface mounted linear luminaire, with attractive low profile body.

- Slimline T5 fitting using the latest technology to illuminate sports halls
- Highly efficient reflectors provide a DLOR of 82% maximizing the available luminous flux
- Available in 3 and 4 lamp versions
- Complete with lamps and wire guard as standard
- Detachable gear tray for ease of installation and maintenance
- Exclusive use of colour 84 T5 lamps and High Frequency control gear for maximum efficiency and quality of light
- Emergency versions available
- Designed and manufactured in Modern facilities using sophisticated equipment and assembly methods
